

Jade

On Monday we had a carnival drop day and we were trying out things for carnival and making stuff to go in to it in the up and coming year. Miss Townsend and other members of staff created the day for year 8 to spend making, flags, big heads for the parades, learning the dance moves, trying out video recording & learning drumming.

On the drop day I spent the day creating big heads for people to wear in the parades and it involved getting thin, long sticks and weaving & shaping them into a head shape and making a neck to support the head on to the person's neck. I also had to make sure they could see too! Then we got thick tissue paper and paper-mashed it. After layering up the paper and shaping the 'Gross', which means the features on your face, like your nose, the way your eyes go in and your chin shape, they were finished and ready to be painted by another pupil or member of staff.

I really enjoyed our drop day as it was a lot more fun than lessons and we all got to put some of our hard work in to the carnival that represents our school in Brighton, Hastings and even France this year!
