

Carnival day - Megan

Every year 8 student on this drop day were all participating in the carnival and trying different activities. There were a variety of different activities to choose from. We have already had a couple of days before to choose what we wanted to do and this time there was a choice of dancing, bloco, giant puppets, big heads and more. The students got to change rooms and try different activities and enjoy the help of some people that came in to show us all the different things to do and make.

I was involved in the dancing.
